

Many nightclubs like Casa Latina, Prosperidad Nightclub, and Exotica Showgirls have all purchased our speakers. Recently, Milan from California Sound came to us when preparing for a project. Milan and his partner were speechless! Amazed at how CSP sounded. "this is one of the best speakers I've heard in years." Said Milan. With over thirty years of experience in the business, Milan decided that CSP was indeed the perfect sound for Castle Park in Riverside and Raging Waters in San Dimes, CA.

490 is composed of 8" units. Ultra heavy low frequency, bright mid to high frequency with high sensitivity and large output. It is a fusion of high-end acoustics and professional output power.

In some small bars, shopping malls, restaurants and other widely used. 2-way sound systems, special Flying Version.

490 products designed specifically for small music venues, a PaulAudio 212 power amplifier can be used to promote 4 and 2, respectively.

In KalaOke use, particularly because of the structural design of a unique serial CSP LV Driver Speakers, can effectively prevent the occurrence of feedback.

468 products have extraordinary dynamic response, especially in the low-frequency performance, the outbreak of the dynamic completely, so that you could imagine.

Mini-box design, but also reflects the professional level CSP professional audio products.

2-way sound systems, special Flying Version. The 468 loudspeaker yields 90 degrees horizontal coverage at 90 degrees vertical.

Professional low-key to the enjoyment of your professional

15"Direct-Radiating Bass-Reflex Subwoofer. The 257 product sound low, the low-frequency response of the solid products. the low-frequency dynamic range.

Particularly applicable to a small area produce a big low-frequency dynamic place, and supporting the use of good 390,368
